*Dienelt & Eisenhardt*

IRON FOUNDERS AND MACHINISTS,

Nos. 1306 to 1318 Howard Street,

ABOVE THOMPSON.

*Philadelphia, Pa.,*

Dictated.

April. 21st. 1890.

Mr. Wm. F. Pratt. Chief Enginneer.

U. S. Mint. Philadelphia Pa.

Dear Sir.

After a good deal of delay we find that we can furnish the 6x4x6 Regular Pattern Worthington Steam Pump, with Automatic Pressure Regulator and Bed-Plate for the sum of one hundred and ninety dollars. [ \$190.00. ] As you have Bricklayers, Steamfitters etc. in your employ it would suit us best if you were to do this work yourself, as we hardly know how to get it done. But if we must, we must; and would propose to do it for Sixty dollars. That is to build the brick foundation, make the pipe connections, cover the pipe, furnish the two Globe valves etc. put up the Pump complete. We remain with kind whishes for your success in your present position

Yours truly

*Dienelt & Eisenhardt*

Wm. H. F. Pratt

Wm. H. F. Pratt

Dear Sir,

Also a good deal of delay we find that we can furnish the exact  
regular pattern for the sum of one hundred and fifty dollars. As you have  
bricklayers, steamfitters etc. in your employ it would suit us best if you were  
to do this work yourself, as we really want you to get it done. But if we must  
do what you would propose to do it for sixty dollars. That is to build the brick  
foundation, have the pipe connections cover the pipe, furnish the two pipes  
values etc. and the four complete. We remain with kind regards for you and  
yours in your present position

Sincerely

Quinn & Co.
